THUREIN TUN

WEB DEVELOPER

An enthusiastic builder, learner, and teacher. My strong foundation in computing and business management complements my hands-on experience in web development and teaching.

SKILLS

- JavaScript
- TypeScript
- Python
- PHP
- HTML & CSS
- NodeJS
- React
- Jekyll
- Git
- Docker
- ExpressJS
- Flask
- Tkinter
- MongoDB
- MySQL
- Postgresql
- Microservices
- Kubernetes
- Jenkins

PROFILE

I specialize in building web solutions using the **MERN stack**. My background with **PHP** has equipped me to understand and adapt to diverse coding environments. My proficiency extends to **Python**, particularly for data manipulation and automation.

PERSONAL PROJECTS

Visit my portfolio projects at
<https://thureindev.github.io>

When I'm not busy with freelance work, I like to get hands-on with my own fun projects. Exploring new tech, tackling different challenges, and keeping the learning curve alive and kicking. It's all about pushing the limits and seeing what cool stuff I can create.
